### Interesting Cat Facts:

- Cats are one of, if not the most, popular pet in the world.
- There are over 500 million domestic cats in the world.
- Cats and humans have been associated for nearly 10000 years.
- Cats conserve energy by sleeping for an average of 13 to 14 hours a day.
- Cats have flexible bodies.
- A group of cats is called a clowder, a male cat is called a tom; a female cat is called a queen or molly while young cats are called kittens.
- Domestic cats usually weigh around 8 lb 13 oz to 20 lb 0 oz.
- When cats walk their back paws step almost exactly in the same place as the front paws did beforehand, this keeps noise to a minimum and limits visible tracks.
- On average cats live for around 12 to 15 years.
- Cats spend a large amount of time licking their coats to keep them clean.
